

How Can I Help?

I've gotten countless emails from people who are very upset (as any conscientious person would be) to learn about that we are currently de-evolving as a species. The toll in human misery is incalculable.

Watching this disaster unfold, while being unable to change it, is intensely frustrating. Unfortunately, there's not a whole lot most people can do except practice eugenics themselves, and support women's clinics. However, there's one thing we can *all* do -- we can contribute to the scientists who are doing research and to the activists who are spreading the word.

(1) The Pioneer Fund is the source of funds for this research. Among others, it has given grants to J. Philippe Rushton, Glayde Whitney, Arthur Jensen, Richard Lynn, Linda Gottfredson, and Thomas Bouchard (who conducted that fascinating study uniting identical twins who were separated at birth).

I received the following information on making a donation directly from Richard Lynn, who is now president of The Pioneer Fund: "The donor's check should be made out to The Pioneer Fund. It can be paid direct into the Pioneer Fund's account at JPMorgan Chase, 600 Fort St, Port Huron MI 48060. The money can be considered a donation to charity, ie is tax deductible." (The Pioneer Fund, Inc., A New York Not-for-Profit Corporation (the "Fund"), pursuant to Section 614 of the Not-for-Profit Corporation Law of the State of New York.)

(2) Counter-Currents.com <https://secure.counter-currents.com/donate/> is one of the very best websites on the internet (others are listed in the Links section on this website). C-C has published a lot of my work, and eugenics papers by others as well. They also do interviews, and publish a journal and a number of books. With C-C, a contribution is not tax-deductible, but they have arranged convenient ways to pay by credit card or PayPal, and to make automatic payments monthly.

It's a mistake to think that because we, as individuals, are unable to single-handedly solve this problem, there's no point in doing anything at all, or to think that if we can't afford a large donation, there's no point in making a small one. This is defeatist thinking, and it's harmful to the cause of eugenics, and to the soul as well. If all the people who have visited this website had made a small donation, this would have a big impact. So let's see how much money we can raise, starting right now. If eugenics isn't a "worthy cause," then I don't know what is!

Best wishes to all,

Marian Van Court, April 20, 2016
